

Autobank[®] CX Series

CXC3121

Accept and validate cash and dispense coin with confidence and visibility

- Coin dispensing - buy/escrow change and keep safe door closed
- Bill validation - automatic bill counts and counterfeit protection in a closed-safe environment
- Drop drawer - direct deposit to inner compartment

CXC safes provide fully integrated bill validating and coin roll dispensing functions within the retail cash management process. The integration enables greater operational efficiencies and reduced cash shrinkage through individual accountability provided by a detailed audit trail of each safe transaction. With a larger 120-tube capacity and dual bill validators CXC safes meet all your cash management needs with vending and validating condensed to one of the smallest footprints on the market.
