Press Release

Headline: FireKing® Security Group Offers New Integrated Cash Recycler
Copy: While new technologies continue to transform the cash-handling industry, FireKing Security Group remains ahead of the curve. As evidence of our innovation, we are proud to announce the release of FireKing's Summit Universal Note Recycler Safe as the latest addition to the suite of products and services seamlessly integrated into the Summit Platform. This new solution allows retail establishments to maintain cash and coin equilibrium without needing change-order deliveries or cash pickups for extended periods of time—safely saving businesses time and money.

Built for speed and responsiveness, the Universal Note Recycler is easily scalable to any customers' needs—positively impacting every process and person in any cash-heavy environment. It accurately deposits, dispenses and stores notes, automating manual cash handling processes to reduce human error and eliminate security concerns, bank fees, cashier delays, deposit bottlenecks, and more.

The intuitive design boasts a significantly reduced footprint for front-line availability with under-the-counter or next-to-register placement, Clever Lever™ bolt-work for a reinforced and pry-resistant door, as well as an all new V-Shield™ to keep liquids and coins away from the note feeder. And all five new Universal Note Recycler Safe models can hold up to 4,500 notes. Combined with the comprehensive remote system management and business analytics of our Summit Platform, there isn't a more powerful or flexible under-the-counter cash solution on the market.

To learn more about the Summit Universal Note Recycler series of safes, visit fireking.com or speak with us directly by calling **1.800.457.2424**.
